“ Reflecting Some Thoughts on Your Day. From Your Memorial Service...

Dad...

- *Such a witty and intelligent man. His memory of life events, and stories he told would always draw us in. His dry sense of humor was habitually contagious.*
- *He epitomized what a human being should strive to be like. You will never find a more caring person on the face of the Earth. He was always there for us... always supported us in the things we liked to do, and always wished he could do more.*
- *I wish I could have done more for him... and I told him that so many times.*
- *We will miss him more than he will ever know... and I told him that so many times... right up until his final day.*
- *He wanted us all to know how much he loved us... I told him he didn't have to tell us... we always knew and loved him just as much.*
- *He always wanted us to become the best person we could be in whatever path we choose to go down in our lives.*
- *We should all try to be at least a little like him... I know that would make him happy.*
- *I will never be able to remember all the stories he has told... but will always remember how they made me think and laugh.*

We will forever remember what you meant to us.

You will always be missed, but never forgotten.

“ *The news of Dick's passing saddened me greatly. He always tried to be a mentor to me when I first worked at PDA. I'll always remember his devotion to his wife & children, as well as his great sense of humor. He was an artist and, as a modelmaker, a complete craftsman. Both as a man and a designer, he will be missed by anyone fortunate enough to have known him.*

“ Larie, Bill, Todd, Alesha, and families, I am so sorry for your loss, and my condolences. Dick was a wonderful friend and mentor to me for the past 40+ years, and most recently as my partner in designing new products for my company for the past 10 years. I could always count on Dick to add a new level to our conversations about product design, or family - all was fair game. I'll miss our May 1st competition to see who would get the call in to each other first - and he usually beat me to the call. What the call was about is something we need to discuss over an adult drink.
I'll miss Dick very much.

*Larie and family, please accept my condolences for your loss. I had the pleasure and privilege of working with Dick for over 20 years at Chase Design. He taught me countless things about form and design (and humor) that I will carry with me for the rest of my life. He was a great mentor and co-worker that I will never forget (I even use a few of his jokes every now and then). May God bless you all.

RIP Dick. We shared stories at the office today about all your jokes and trying to blow the place up smoking in the paint room. It was always a joy to chat with you. My condolences to your family.
