“ *Dear, dear Wilson family, I am deeply saddened for the loss of your mom (gramma and great gramma). The fondest memories of my childhood and early adult life were frolicking in the pool at 85 Sherwood Ave, and paling around with Marty on various adventures. She was a great and strong woman whose influence on me I can still feel today. May my prayers and deepest sympathies hold you all in good stead and give you strength in this difficult time. With sincere love, Steve Parnell*

“ *Our deepest sympathies go to Mary's children, grandchildren, great grandchildren, & her brother Tom. I was grateful to be able to meet Mary a couple of years ago right after Christmas. We were at a get-together at Betty Nieptowski's house. I "found" my father's (Joseph Gilmore) extended family through ancestry.com and then got a call from Tom. Mary and I had a very nice conversation while she was at a senior apartment. My dad and Mary and Tom are first cousins as their fathers were brothers. May she rest in peace with the Lord.*

“ *What a lovely, amazing legacy. My sympathies go out to the entire extended family in your time of loss. Having lost my own father this past summer, I certainly understand how difficult it is. I am certain that you all will find comfort in each other, as you so often have, and in your many fine memories of Mary.*
