Dad u will be missed deeply and never forgotten i love u Written by Caresse Lewis on 1/17/2009.

It all started with a statement "You will be mine (I was yours for a time) and ended with an everlasting friendship between you and I. Some people did not understand that friendship and to this day can still do not know why we tried to stay in contact with each other. That is a puzzle they can try to figure out but will never complete. You will be missed dearly but I know that in time we will be reunited as friends and that you are here with us all... Love always, Kelly P.s: A poem from the heart: Angels 2 the heart with love Love is always waiting With joy and peace to share Each gentle heart is praying That you will be aware It only takes a moment To find someone who cares To help with all life's burdens An Angel who is there The heart of special Angels Who give us hope from fear? With bountiful good wishes A friend that's always near In life our roads are endless We seek and hope to find Someone who is caring Who'll help us in life's climb? What greater love is offered? By gentle Angel wings To lift us to the heavens To gather love that brings Time and sweet compassion As hearts will gather light Perhaps some understanding Will make our days seem bright Welcome to this loving place With Angels 2 the Heart Wings and love and gentle things Each Angel will impart So if you feel a moment When you are all alone Remember that these Angels Will make their heart your home.
