“ I worked with Steve, in 1993, at Precision Systems in Liverpool. I was in awe of the quality of his sheet metal work. Years later, when I was teaching welding at BOCES in Liverpool, I was a customer at the sandwich shop. I am sorry to have just now heard of his passing.

“ So sorry to hear of Steve's passing. I have many good memories of Steve, from the first time I heard his band (Godspeed?) playing "Volunteers" in the basement of his parent's home in Liverpool, to the many years we spent bowling together. I especially remember playing bass on "Crossfire" at practice with Steve, and how excited he was when his band Driver recorded a 45 in Nashville. I will miss him. MaryLou and I send our sincerest condolences to his family.
